Youngjune Oh

MS. Candidate at Seoul Nat'l University youngjune@popeye.snu.ac.kr
http://www.youngjuneoh.ml/

EDUCATION

Seoul National University, Republic of Korea
- M.S. in Computer Science and Engineering — Mar 2017 – Feb 2019

Handong Global University, Republic of Korea
- B.S. in Computer Science and Electrical Engineering — Mar 2011 – Feb 2017

AREAS OF INTEREST

Internet of Things (IoT), Cyber-physical systems, Wireless Sensor network, Low Power Wide Area Network (LPWAN), Machine learning, Blockchain

SKILLS

Programming Languages and Tools (Advanced || Experienced)
C/C++, Java (Adv.) || Python, Erlang, MATLAB, OCaml (Exp.)

Developing Environments and Platforms
Linux (Ubuntu), Windows, Embedded Development Tool (KEIL), Contiki OS, Raspberry pi & Development boards

Language Proficiency
Korean – native
English – business level

RESEARCH EXPERIENCE

IoT Based Social Relation Analysis — **Sep 2018 – Dec 2018**
- Data collection with BLE, Clustering with similarities

TRILO: Downlink Communication Protocol for LoRaWAN — **Sep 2017 – Sep 2018**
- Implementation of proposed embedded software for low power wide area protocol

Localization with Bluetooth Low Energy — **June 2017 – Sep 2017**
- Data collection and preprocessing, Classification with machine learning

Real-time Heart-monitoring System — **Sep 2015 – Aug 2016**
- Implementation of demo application using BLE over IPv6 with CoAP protocol

TEACHING EXPERIENCE

Seoul National University, Seoul, Republic of Korea
- **Teaching Assistant**, Dept. of Computer Science and Engineering
  - Engineering Mathematics 2 (033.015) — **Spring 2017**
  - Artificial intelligence agent course by Ministry of Employment and Labor — **July 2017**
  - Computer Networks (4190.411) — **Fall 2017**
  - Artificial intelligence agent course by Ministry of Employment and Labor — **July 2018**
